EDUCATION

- **P.D.A Enginneering College** Gulbarga,Karnataka
  Bachelor of Enginnering In Information Science And Engineering
- **Saravajna Pu College** Gulbarga,Karnataka
  Pre University Course
- **Jeevan Prakash High School** Gulbarga,Karnataka
  SSLC

CARRIER OBJECTIVE

I am a motivated DevOps Engineer with hands-on experience in CI/CD pipelines, cloud platforms (AWS), containerization (Docker, Kubernetes), infrastructure as code (Terraform, Ansible), and monitoring tools Prometheus, Grafana, CloudWatch. Skilled in automating deployments, improving system reliability, and optimizing development workflows.

PROJECTS

- **Jenkins CI/CD Pipeline With Docker**
  - Implemented CI/CD pipeline using Jenkins integrated with GitHub for automated build, test, and deployment workflows.
  - Built and deployed Docker images to AWS EC2/Kubernetes cluster for scalable and fault-tolerant application deployment.
  - Designed and automated Docker-based containerization of applications, ensuring consistent environments across development and production.
  - Tools used: Docker,DockerHub,Kubernetes,Github,EC2,Linux

- **AWS Infrastructure Automation with Terraform**
  - Provisioned AWS infrastructure using Terraform including EC2 for compute, ALB for load balancing and RDS for database management.
  - Designed and provisioned AWS infrastructure using Terraform, including VPC, public/private subnets, Internet Gateway, and NAT Gateway..
  - Integrated Terraform with CI/CD pipeline to enable automated infrastructure provisioning and updates.
  - Tools used:EC2,VPC,IAM Roles ALB,RDS,Internet Gateway,NAT Gateway,Linux

TECHNICAL SKILLS

- **Devops Tools:**Docker,Kubernetes,Terraform,Jenkins,Ansible,Git,GitHub.
- **Cloud Platforms:**AWS(EC2,S3,IAM Roles,Load Balancing,EBS,Route S3)
- **Operating System:**Linux Os, Amazon Linux, Ubuntu.
- **Scripting:**Shell Scripting.

CERTIFICATIONS

- **AWS Solutions Architect(Micro Degree)**
- **DevOps Engineer(Micro Degree)**
